

Community Employment Services

If you are looking for a job, we can help.
Whether you are looking for your first job
or a new and better job, we can help.

Supported Employment

We offer both Individual and Group Placement options in our Supported Employment program. Our Job Developers will work closely with you to find a job. Sometimes your first job will not be the job you keep for a long time; as your job skills and work experience grow, our Job Developers will help you move on to a better job. Our Job Coaches provide support, training, and guidance for job success and career growth.

Direct Placement

Our Direct Placement Program provides just the right amount of assistance to help you find a job. Our Job Developers will work closely with you in the job search process. Once you start a job, our Job Coaches will provide on-site support to you for the first 90 days on the job as you master your job duties and build workplace relationships. You can always call us if you need more help after your first 90 days of employment and we'll work with your Department of Rehabilitation Counselor to negotiate more job coaching for you.

Customized Employment

This very personalized approach in employment services capitalizes on your strengths, needs, and interests. Our Customized Employment service will negotiate with potential employers to customize a job for you based on your abilities and which takes into consideration your need for accommodations. If owning your own business is your goal, we can help you with developing a business plan, legal requirements, business start-up, and provide on-going support to help your business succeed. This creative blend of services includes: Supported Employment, Self-Employment, Entrepreneurship, Job Carving and Restructuring.
